BOOK SYNOPSIS

Sadie can reach into your mind to discover anything she chooses, change a memory, and much more. She swore long ago she would never again use her abilities to control or exploit another being. She doesn't know why she has power over the mind, but those who discover her abilities flee from her. People fear what they don't understand, so she hides her powers. Billie can hear a conversation two blocks away and smell the neighbors gardenias on your shoes. She notices everything in her surroundings and has physical strength and speed far surpassing any Human's. Beta of the local Wolf Pack and the second most powerful Wolf in the Pacific Northwest, she approaches life with confidence and pride. An unusual and passionate connection sparks, and they quickly discover neither is an ordinary woman. Still they hide their full nature from each other. Sadie lies for fear of rejection. Billie conceals the truth to keep a promise. In the dead of night, in fear for their lives, they must expose their secrets or die. What could be more disturbing than discovering your girlfriend is a werewolf? Finding out you're even more fearsome ... and her Packs sworn enemy. "Mages cannot be trusted." This book contains descriptions of lesbian sex. If you're under 18 years old or you object for any reason, then this isn't the book for you. Otherwise, enjoy!
