BOOK SYNOPSIS

Don Lavoie argues that the radical Left's enthusiasm for planning has been a tragic mistake and that progressive social change requires the abandonment of this traditional view. Lavoie argues that planning—whether Marxism, economic democracy, or industrial policy—can only disrupt social and economic coordination. He challenges both radicals and their critics to begin reformulating our whole notion of progressive economic change without reliance on central planning. *National Economic Planning: What is Left?* will challenge thinkers and policymakers of every political persuasion.
