BOOK SYNOPSIS

Available together for the first time—all three books in the award-winning Legacy Trilogy. Perfect for established fans who want to own the entire Legacy collection or readers new to the series. This e-book bundle contains Legacy, Prophecy, and Revelation, and AWOL, the never-before-released prequel to the series. Imagine a world where your emotions are entirely within your control. How do you want to feel today? Want to be fearless? Bold? Exhilarated? Blissfully happy? In 2041, the choice is yours. Changing your emotions is as easy as popping a pill. But, choose wisely. A quick fix always comes at a price. Eighteen-year-old Lex Knightley ventures alone into deserted San Francisco not at all prepared for what or who she will find. A magnetic soldier with a haunting past and his loyal pup; a cold-blooded conman; a general with a heart of stone; a spiky-haired jokester; and a medicated army of super soldiers incapable of fear. As she uncovers the city's secrets, Lex begins to realize no one can be trusted, not even those closest to her. The mysteries of this emotionally-engineered world begin to multiply, sending Lex on a race for her life. Can she unravel the clues before it's too late? Embark on a stirring, edge-of-your-seat adventure with the Legacy Trilogy. Then, journey back to the beginning with AWOL, the prequel novella, told from the perspective of Quin McAllister. Long before Lex Knightley crosses the Golden Gate Bridge into a deserted San Francisco, Quin makes a run for it, leaving the Guardian Force, General Ryker, and an army of medicated super soldiers behind him. But if there's one thing Quin knows, it's that you can't outrun the past. And his past—foster kid, screw-up, delinquent, hopeless case, soldier, wanted man—is coming for him. AWOL includes thirteen scenes which offer a glimpse into the heart of an anti-hero and set the stage for the epic adventure that is the Legacy trilogy.
